Dogs

Aries dogs are bold, impulsive, and fully committed to whatever moment they are in. They initiate play before you are ready, assume you are always available, and approach life with a kind of heroic enthusiasm that is both inspiring and slightly exhausting. What they need most is structure around their energy. Boundaries = confidence and trust.

Cats

Aries cats are curious, independent, and just a little unpredictable. They thrive on short, stimulating bursts of activity paired with the freedom to move on when they are done. Too little engagement leads to boredom, and boredom leads to... creativity.
What they need is a balance of autonomy and interaction. Give them choice, provide stimulation, and offer just enough challenge to keep them engaged. When understood, Aries cats are playful, expressive, quietly brilliantly navigating their world.

Color me in and/or cut along dotted lines. Fold in half, taping the edges to create a card.
Read out loud to your cat or dog, and embrace its wisdom.
